Ordination of New Episcopal Minister Takes Place With Impressive Services.

Times-Dispatch Bureau.  
109 North Sycamore Street,  
Petersburg, Va., May 31.

William Rowe, a negro, was run over by a Norfolk and Western train at Nottoway yesterday, and died this morning in the Petersburg Hospital from the effects of his injuries.

It is believed the man was trying to jump on a moving train and fell on the tracks. Both legs were crushed about the ankles. Rowe was hurried to the hospital here, but his condition from shock was so serious that the attending surgeon, Dr. Aulick Burk, deferred the amputation of the limbs for fear that death would result under operation. The man never recovered from the shock, and was unable to tell anything about himself or about how the accident occurred.

Christopher C. Clarke, colored, aged twelve, had his left foot badly mangled at Disputanta this evening. Clarke was employed as water at the Southern Disputanta baseball team, which was playing the Petersburg High School team, at Disputanta. He attempted to jump a passing freight train, fell and his left foot was nearly mangled off. He was brought to the hospital in this city to-night for treatment.

**New Assistant Postmaster.**  
John Arthur Johnson, cashier of the People's Savings Bank, was this evening appointed assistant postmaster by Postmaster Smith. Johnson filled the vacancy caused by the death of George A. Minette. Mr. Johnson was for a number of years employed in the post-office as money and stamp clerk.

John Gary Hatfield, colored, who was arrested in Petersburg on May 19, on the charge of robbing Edward Johnson, colored, of Savannah, Ga., of a railroad ticket, and passing himself off as Johnson, was tried before United States Commissioner Bartlett Roper, Jr., this evening and sent to the next term of the United States court at Savannah, Ga., for trial.

**Ordination to Priesthood.**  
A very large congregation crowded into Grace Church this evening to witness the ordination to full priesthood of the Rev. Charles William Sydnor, a well-known and popular young man of Petersburg, who is to devote his life to the ministry, and who for some time has been laboring in the mission field in Southwest Virginia. The ordination services were conducted by the Rt. Rev. Beverly D. Tucker, bishop-coadjutor, assisted by the Rev. C. B. Bryan, D. D., and the Rev. J. F. Hester, ministers of the church. The sermon for the occasion was preached by the Rev. R. W. Barnwell, rector of St. Paul's Church. The services throughout were very impressive.

**Personalities.**  
Commodore Carter R. Bishop, of this city, has accepted the invitation of the Ladies' Memorial Association to deliver the address at the Confederate memorial exercises in Blandford Cemetery on the afternoon of June 9.

The Petersburg post-office is now doing and for the next three months will continue to do, business in the Centre Warehouse property, on Washington Street, which has been rented by the government and conveniently fixed up for the purpose. All the boxes, furniture, etc., in the post-office have been taken to the warehouse. The removal was rendered necessary because of the improvements to the post-office building now being made.

The clothing exercises of the Petersburg Academy took place on Saturday, privately. Medals were given for high average. The exercises were given by Howard Francis Gill, proxime accessit, Robert D. Cronly, Jr., and Mason Romaine, Jr., and in the lower school, Samuel Marcellus Backdale, proxime accessit, George Adams.

Paul Kutchman and family, of Dinwiddie county, will leave on Thursday for New York, whence they will sail for Europe on June 8. They will visit France, Germany and Austria-Hungary, and will be absent two months or more.

## A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

**Dr. Pierce's Golden Medical Discovery** prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

## REPORTS OF YEAR'S WORK

Matter of Allowing Members to Take Out Life Insurance Will Be Considered Again.

(Special to The Times-Dispatch.)  
HARRISONBURG, Va., May 31.—Threatening weather limited the attendance at the United Brethren's conference to-day, not more than 12,000 being present. The forenoon was given over to the completion of the work of the committee on credentials and to consideration of reports on church and Sunday school work, which showed that there are now 1,158 United Brethren churches in the United States, 1,642 preaching places, 1,192 Sunday schools and 350 Sunday school libraries, with collections amounting to \$44,237.32, officers and teachers numbering 9,065, and a total enrollment of \$2,864, an increase of over 12,000 during the past year. Every department showed a gratifying increase.

**Interesting Questions.**  
In the afternoon there was a discussion of home and foreign mission work, followed by an editorial meeting. All the preliminary work is now completed. The conference will get down to new business to-morrow, when matters pertaining to the doctrine and policies of the church will be discussed in open meeting.

The question of whether the church will consent to allow members to take out life insurance will be up again, and the matter of correct dress for Brethren will almost assuredly take an interesting turn.

It is said that the next annual meeting will be held in Indiana, but this has not been definitely decided.

(Special to The Times-Dispatch.)  
NORFOLK, Va., May 31.—Announcement yesterday of the death of Alderman John W. Cashin, of 462 Church Street, said to be one of the wealthiest men in Norfolk, came as a great shock to his friends and relatives.

Though he had been sick several days, the fact was known to his friends and the friends of the family, and not until Saturday was the trouble believed to be serious. Death was directly due to a hemorrhage of the stomach.

The Alderman was forty-six years of age, and is survived by one daughter, Miss Minnie Cashin, and two sisters, Misses Mary and Maggie Cashin. Mr. Cashin was an Elk and a Hibernian, and was connected with a number of business enterprises in the city.

LYNCHBURG, Va., May 31.—One of the most stubborn fires in Lynchburg for years raged for three hours to-night in the plant of the Lynchburg Lounge Company, on Salem Street. The five-story building was filled with materials used in the manufacture of lounge chairs, and the fire, which was in the cellar and the firemen fought from the street floor and from beneath in the subcellar. The smoke was so dense that they could not enter. Hoseman Aubrey McCraw, of Company No. 3, was overcome, but was rescued in time to be revived. **No Encampment This Year.**  
Adjutant-General J. P. Armfield, of the North Carolina National Guard, has returned from Washington, where he went to inquire into the possibility of holding an encampment at the Morehead grounds this summer. He found the situation still unsettled, with the prospect against the encampment. It is deemed best by many to make sure of getting the equipment of the guard up to the regular army standard this year, so as to be able to pass the examination next January and let the encampment go over to next summer. The men throughout the State realize the situation, and though they are very anxious for their usual outing, they are willing to forego the pleasure in the interest of the whole guard. The equipment necessary will cost about \$8,000.

General Armfield found at the War Department that Virginia and several of the other Southern States have cut out the encampments for this summer in order to make sure of adequate equipment.

Cameron, of Pennsylvania, is president of the other. Should the Roanoke Rapids Power Company win this suit it would almost mean the crushing of the defendant company; on the other hand, should the defendant win, the result would be almost as disastrous to the plaintiff. Some of the best known lawyers in several States will appear in this case.

## Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

## Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."

Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."

Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."

Dr. M. F. Merrill, of Augusta, Me., says: "Castoria is one of the very, finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merit."

Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."
